### Important Notes

- 1. To be promoted to a manager position, the number of direct subordinates and team members must meet the required thresholds to apply for promotion and receive the corresponding benefits.
- 2. If a direct subordinate meets the promotion requirements but the team size doesn't meet the threshold, the promotion application will not be accepted.
- 3. Every manager must lead their team members responsibly and must not spread false information. If a report is verified, the person reporting will receive a 100 USDT reward, and the manager will lose all benefits and be permanently banned from cooperating.
- 4. Operating multiple accounts by one person is strictly prohibited.
- 5. Manager bonuses are distributed on the 9th, 19th, and 29th of every month.
- 6. To be promoted to a Level 1 Manager, you must invite at least 5 people directly.
- 7. A balance of at least 300 dollars is required to be included in the team list.
- 8. If a manager's bonus percentage is lower than the minimum salary, they can contact Professor Stephen during the bonus period to claim the minimum salary.
- 9. The BG Group's bonus rewards are designed to incentivize team builders and managers. The bonus is not only a reward but also an acknowledgment of the manager's responsibility and contribution, equivalent to a salary. Managers must lead, manage, and support their teams, ensuring continuous growth and stability. If a manager fails to fulfill their duties after promotion, BG Group reserves the right to cancel or adjust the bonuses, ensuring that they are only given to leader who truly drive the team's development.

# TEAM BUILDING

Endorse 5 people to form a group and enjoy trading volume dividends

1. When the team meets the dividend conditions, each recommender can apply for dividends on the 9th, 19th, and 29th of each month based on the trading volume of his or her downline members (the downline members' deposits must be greater than 300 USDT). The higher the trading volume, the more dividends. If the dividend is less than 30 USD, it will be rewarded at 30 USD.

2. Each recommender in a leadership position can apply for a birthday allowance once a year. (Birthday allowance: 100 USDT).

3. Recommenders in each position must lead team members responsibly. The team is strictly prohibited from spreading rumors or negative information. Once it is confirmed that someone has spread rumors, the team will cancel all benefits after verification.

4. Recommenders in each position need to diligently lead the team development and work hard to support each subordinate member. For each subordinate who successfully promotes a junior recommender position, the supervisor recommender will receive a team reward of 50 USDT!

5. Teams in senior recommender positions can apply for a monthly team gathering to promote team building and development. Gathering expenses must be reimbursed (reimbursement must be arranged in advance with the team project manager and approved by the team project manager).

6. Trading volume dividends (uniform distribution time: 9th, 19th and 29th of each month), please apply to the project manager, who will review and arrange distribution. The manager upgrade reward can be directly requested from Professor Stephen.

# VOLUME DIVIDENDS

If you successfully invite 5 new friends to join, and each of them invests more than \$300, you will be promoted to Level 1 Manager and receive a \$100 promotion bonus.

This means that your leadership and team development skills are recognized.

Manager bonuses are paid three times a month, on the 9th, 19th and 29th. Bonus rewards are a direct return on the successful growth of your team, and your income will continue to increase as you add more team members.

The dividends are divided according to different levels as shown below.

1

1. When the team meets the dividend conditions, each recommender can apply for dividends on the 9th, 19th, and 29th of each month based on the trading volume of his or her downline members (the downline members' deposits must be greater than 300 USDT). The higher the trading volume, the more dividends. If the dividend is less than 30 USD, it will be rewarded at 30 USD.

2

When the team reaches 25 members, you will be promoted to LV2 manager and receive a promotion bonus of \$300. In addition, you will receive a 1% dividend on the team's trading volume every 10 days, three times a month.

3

If your team reaches 1,000 people, you can upgrade to LV5 manager and you can get a promotion reward of 5,000 USDT. [1,000-person team: daily trading volume  $1,000 \times 100 = 100,000$  USD, manager's 10-day trading volume  $1 \text{ million} \times 3\% = 30,000$  USD, equivalent to the annual salary of an ordinary worker] success rate. (This is calculated based on the number of team members, for example, the trading volume of 1,000 and 3,000 investments is different)

### Dynamic Signal Rewards:

- When you invite a friend to invest more than \$500, both you and the new member will receive 6 bonus dynamic trading signals.

In addition, you can participate in 6 signal transactions and receive 2 dynamic signals at 2 pm and 2:30 pm, and another 2 dynamic signals at 8:30 pm and 9 pm every day.

- If you invest \$1,000, 2 days of signal trading can help you realize a profit of \$65.

If you invest \$3,000, you might get \$195 in profit.

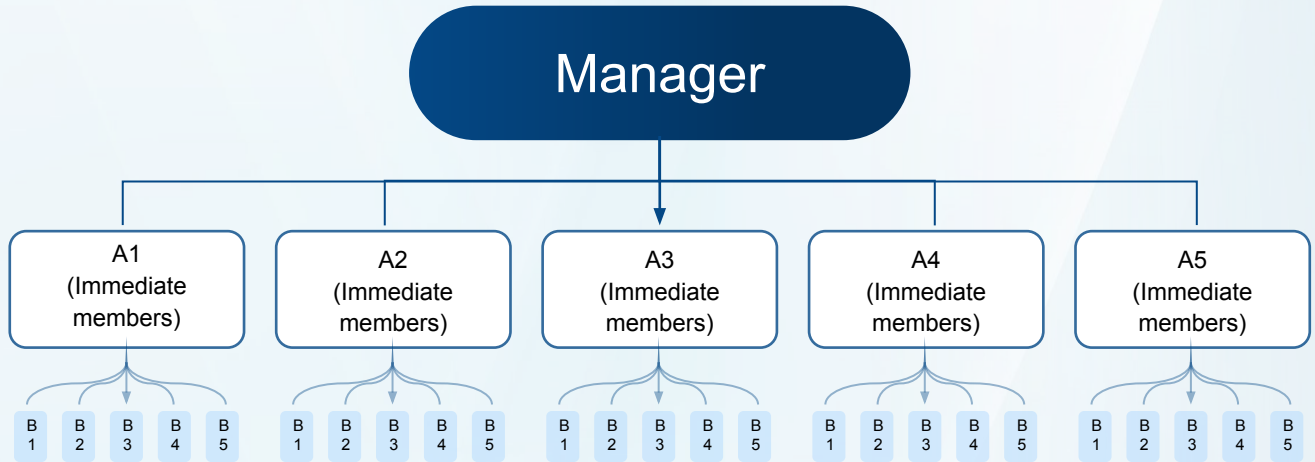

It should be noted that the dynamic trading signals provided by the referrer are proportional to the initial deposit amount of the new member, that is, the trading volume accounts for 1%. If you are unable to participate in 2-day signal trading, you can contact me or my assistant for more details and accumulate your transactions.

## Dynamic Signal Return

As long as you invite friends to join BG, your daily earnings can increase significantly.

Signal trading is just our basic income, while team income allows us to achieve greater success in the future. A good investor must know how to broaden their perspective. Investment depends on developments over the coming years. I joined the BG Wealth Sharing Team in 2022. From starting as an individual to now becoming a regional spokesperson, my journey from not knowing how to operate at first to achieving success has been made possible with the support of Professor Stephen. I hope you can create your own team just like I did and become wealthier in the future

# VOLUME DIVIDENDS

The Wealth Sharing Foundation serves as the entrepreneurial starting point for each member.

1

With you as the core point of the team manager, the constant cascade of replication into Foundation Advocate positions will grow in multiples of 5!

2

The first tier of 5, the second tier of 25, the third tier of 125, the fourth tier of 625, the fifth tier of 3125, and so on, when your team reaches the level of 10,000 people, you will be able to earn more than \$100,000 per month!

3

According to the concept of five people into a group, management and guidance of each layer of personnel, teaching the correct investment concept, team win-win cooperation concept, common development team, to help each layer of members are able to earn their own a stable income!

Duplication is an unsurpassed entrepreneurial myth!

# How We Complete the Trades

Let's assume we start with \$500, make two trades a day of 1% value, and earn at least \$6.50 a day on average. This brings our total to \$506.50. On the second day, we earn \$6.58, so the profit for two days is \$13.08.

# HOW WE FOLLOW THE TRADING SIGNALS

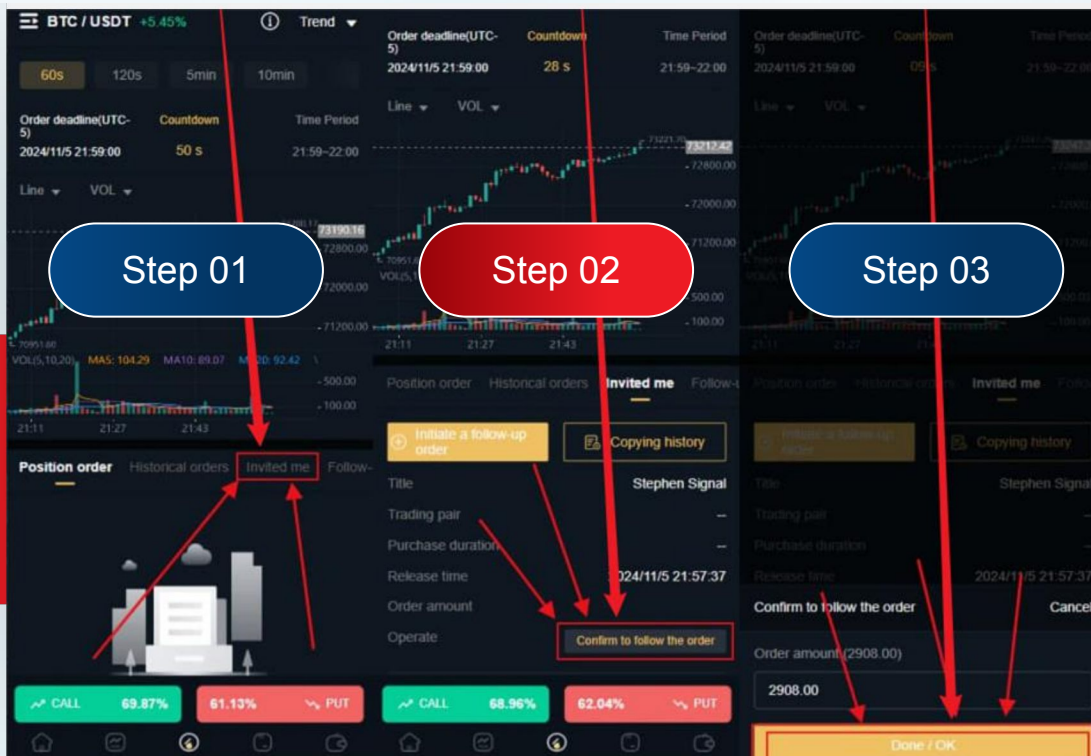

We follow the trading signals by going into the Invited me page and pressing the “Confirm to follow the order” button within the DSJEX app.

There is no manual selecting of the amounts or types etc., just simply press the one button to follow the trade.

This automatically sets the correct product, whether it's a call or put and the 1% amount of our total balance.

# WHAT IF THE TRANSACTION FAILS?

As we have a trading accuracy of up to 99.6%, it's very unlikely that a trade would lose, however if it does we go by a 5 phase plan to trade again for a higher percentage to cover any losses:

As everyone knows, BG Group offers two fixed signals, which provide investors with basic returns after joining. If your DSJEX account balance is \$3,000, the daily returns from these two fixed signals would be \$39. That is equivalent to what an average person might earn in a day or two, allowing you to enjoy stable returns every day.

## Second: Daily Return

Many people do not understand how a 2.6% return works. Let me explain - We have 2 fixed signals plus 2 additional signals that enable us to achieve a 2.6% return. If you want to receive 3 additional signals, you need to invite new members to invest and join. The new members' investment must reach a minimum deposit of \$500.
